Equality Implications

Section 75 of the Northern Ireland Act 1998 requires Departments and other public authorities in carrying out their functions relating to Northern Ireland, to have due regard to the need to promote equality of opportunity:

- Between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- Between men and women generally;
- Between persons with a disability and persons without; and
- Between persons with dependants and persons without.

In addition, without prejudice to the above obligation, public authorities must also in carrying out their functions relating to Northern Ireland, have regard to

the desirability of promoting good relations between persons of different religious belief, political opinion or racial group.

Where there is evidence or an indication that an existing policy is having an adverse impact on equality of opportunity, or that a proposed policy may cause an adverse impact, an **Equality Impact Assessment (EQIA)** may need to be carried out on the policy. The process used by a public authority to determine whether an existing policy or new policy needs an EQIA is called **screening**.

The Department is now screening the proposals set out in this consultation document and as part of the screening process, the Department invites you to consider the following questions.

The Department is inviting responses to the following questions:

17. **Are the actions or proposals, which are set out in this document likely to have an adverse impact on any group of people in terms of the nine equality dimensions? (Please tick)**

YES

NO

If yes, please state the reasons why.

18. **Are you aware of any indication or evidence – qualitative or quantitative – that the actions or proposals in this document may**

have an adverse impact on equality of opportunity or good relations? (Please tick)

YES

NO

If yes, please state the reasons why and how these might be mitigated.

19. Does the proposed strategy and actions afford an opportunity to promote equality of opportunity and/or good relations? (Please tick)

YES

NO

If no, please state the reasons why.

Additional Comments

20. Do you have any other comments, which you think might be relevant to the development of the strategy?

In order to support families couples need to do a certain amount of work before they marry to make sure that they have the tools & skills necessary to make a marital commitment. ACON's Marriage Preparation courses go some way to helping prepare couples. Our evaluation would show the benefits to couples. We are also trying to establish support programmes for couples throughout their marriage / relationship

THANK YOU FOR YOUR COMMENTS

which may prevent them from needing remedial help in the future.
