## PART XIC

### CRITERIA NOTIFIED UNDER THE TRANSPARENCY DIRECTIVE

**Criteria notified to the European Commission under Article 7 of the Council Directive relating to the transparency of measures regulating the pricing of medicinal products for human use and their inclusion in the scope of national health insurance schemes (89/105/EEC).**

The following six criteria have been separately notified by the UK Government to the European Commission since 1989 to comply with Article 7 of the Transparency Directive.

First, under the Selected List Scheme, medicinal products in seventeen therapeutic categories which are excluded from prescription on grounds that, on expert advice, they had no clinical or therapeutic advantage over other, cheaper, drugs in the following categories:-

- Mild to moderate painkillers
- Indigestion remedies
- Laxatives
- Cough and cold remedies
- Vitamins
- Tonics
- Benzodiazepine sedatives and tranquillisers
- Anti-diarrohoeal drugs
- Drugs for allergic disorders
- Hypnotics and anxiolytics
- Appetite suppressants
- Drugs for vaginal and vulval conditions
- Contraceptives
- Drugs used in anaemia
- Topical anti-rheumatics
- Drugs acting on the ear and nose
- Drugs acting on the skin

Second, products may be considered as “borderline substances” which are not truly medicinal products with clinical or therapeutic value and are excluded from NHS prescription on that ground.

Third, as well as being freely available on sale over the counter to the general public the cost to the Health Service if the product(s) were to be supplied on prescription could not be justified at any price likely to be economic to the manufacturer and that the supply of the product is not considered a priority for the use of the limited resources available to the NHS.

Fourth, that products which nonetheless may meet a legitimate clinical or therapeutic need when properly prescribed, are subject to misuse by drug misusers, and such misuse, or the manner in which the product is administered by drug misusers, gives rise to the risk of physical or mental morbidity and alternative products are available to meet all legitimate clinical or therapeutic needs.

Fifth, a medicinal product or a category of medicinal products may be excluded entirely from supply on NHS prescription. It may alternatively be excluded except in specified circumstances, or except in relation to specified conditions or categories of condition, or specified categories of patient. A medicinal product or a category of them may be so excluded where the forecast aggregate cost to the NHS of allowing the product (or category of products) to be supplied on NHS prescription, or to be supplied more widely than

the permitted exceptions, could not be justified having regard to all relevant circumstances including in particular; the Secretary of State's duties pursuant to the NHS Act 1977 and the relevant priorities for expenditure of NHS resources.

Sixth, products that comprise an injection device pre-filled with a drug may be excluded from supply on NHS prescription if the same drug is available and can be used more economically in a container which may be used in conjunction with a refillable injection device.

**PART XII**  
**TECHNICAL SPECIFICATIONS**

**NOTE**

These technical specifications are for dressings and other appliances included in the Drug Tariff for which there are at present no official standards published in the BP, BPC or relevant British Standards.

It should be emphasised that any listed dressing or appliance supplied in response to an order on a Health Service prescription must conform with the relevant entry to Part III of the Drug Tariff as well as with any official standard or technical specification identified in that entry.
