SWINE FLU VACCINATION CLINICS

You should have the swine flu vaccination if you are six months of age or above and:

- you have a long-term health condition such as chronic lung, heart, kidney, liver or neurological disease, or diabetes mellitus
- you are pregnant
- your immune system is compromised because of a disease or treatment for a disease
- you live in the same house as someone whose immune system is compromised

You will be contacted about arrangements for receiving your vaccine.

Flu. Protect yourself and others.

Calls to this number are free from landlines. Calls from mobiles may vary, please check with your provider.
