Chief Executive/Postgraduate Dean, NIMDTA
Chief Executive, NIPPET
Chief Executive, NIPEC
Chief Executive, RMSC

Dear Colleagues

Technology Appraisal No 141 – Abatacept for the Treatment of Rheumatoid Arthritis

Abatacept is not recommended for people with moderate to severe active rheumatoid arthritis who have already tried drugs known as disease-modifying anti-rheumatic drugs (including a 'TNF inhibitor' drug), which didn't work or weren't suitable.

Healthcare professionals should not stop prescribing abatacept for people who were already taking it when the guidance was issued. These patients should be able to carry on taking abatacept until they and their specialist decide that it is the right time to stop treatment.

DHSSPS advises that this guidance is valid for Northern Ireland and endorses it for implementation in HSC.

The full NICE clinical guideline is available for download at:

<http://www.nice.org.uk/guidance/index.jsp?action=byID&o=11961>

The HSC sector also should note that;

1. The Department expects HSC organisations to comply with this guidance with immediate effect.
2. This guidance will be reviewed by NICE in July 2010.
3. This advice does not override or replace the individual responsibility of health professionals to make appropriate decisions in the circumstances of their individual patients, in consultation with the patient and/or guardian or carer. This would, for example, include situations where individual patients have other conditions or complications that need to be taken into account in determining whether the NICE guidance is fully appropriate in their case.
4. NICE has developed tools to help organisations implement this guidance. These are available at <http://www.nice.org.uk/guidance/index.jsp?action=byID&o=11961> and include a costing statement and audit criteria to monitor local practice.

All NICE guidance endorsed by the Department to date can be viewed on the DHSSPS website at:

<http://www.dhsspsni.gov.uk/sqsd-guidance-nice-guidance>

Circular HSS (PPMD) (NICE)01/006 issued on 30 June 2006 provides further information on the Northern Ireland process for reviewing NICE guidance and further details on the local status of the Institute's guidance. This circular can be accessed at:
