Dear Colleagues

Technology Appraisal No 153 – Entecavir for the Treatment of Chronic Hepatitis B

Entecavir, within its marketing authorisation, is recommended as an option for the treatment of people with chronic HBeAG-positive or HBeAD-negative hepatitis B in whom antiviral treatment is indicated.

DHSSPS advises that this guidance is valid for Northern Ireland and endorses it for implementation in HSC.

The full NICE technology appraisal is available for download at:

<http://guidance.nice.org.uk/TA153>

The HSC sector also should note that;

1. The Department expects the HSC sector to put plans in place within 3 months of this e;mail alert, to facilitate implementation of this guidance.
2. This guidance does not apply to people with chronic hepatitis B who also have hepatitis C, hepatitis D or HIV.
3. This technology appraisal was considered for review by NICE in February 2009, however NICE found that no new evidence has been published that would have any material effect on the original guidance. Consequently NICE will now review this appraisal in March 2010.
4. This advice does not override or replace the individual responsibility of health professionals to make appropriate decisions in the circumstances of their individual patients, in consultation with the patient and/or guardian or carer. This would, for example, include situations where individual patients have other conditions or complications that need to be taken into account in determining whether the NICE guidance is fully appropriate in their case.
5. NICE has developed tools to help organisations implement this guidance. These are available at <http://guidance.nice.org.uk/TA153> and include costing tools, implementation advice and audit criteria to monitor local practice.
6. NICE has published related guidance as follows:

NICE guidance published after July 2006.

Telbivudine for the treatment of chronic hepatitis B. NICE technology appraisal guidance 154 (2008). Available for download at: www.nice.org.uk/TA154

NICE guidance published before July 2006

Adefovir dipivoxil and peginterferon alfa-2a for the treatment of chronic hepatitis B. NICE technology appraisal guidance 96 (2006). Available for download at : www.nice.org.uk/TA096

All NICE guidance endorsed by the Department to date can be accessed on the DHSSPS website at: [Safety, Quality and Standards | NICE Guidance | DHSSPS\(NI\)](#)

Circular HSS (PPMD) (NICE) 01/06 issued on 30 June 2006 provides further information on the Northern Ireland process for reviewing NICE guidance and further details on the local status of the Institute's guidance. This circular can be accessed at:
