

## **Terms of Reference**

The terms of reference are:

- to review the current provision of lymphoedema services in Northern Ireland for patients with primary and secondary lymphoedema
- to establish the need for the further development of lymphoedema services, including referral and treatment arrangements
- to make recommendations to the Department by Autumn 2003 to ensure that patients within Northern Ireland receive cost effective, equitable high quality lymphoedema services based on the best evidence available.

and to undertake the work in accordance with the principles and recommendations set out in the Campbell Report on the reorganization of cancer services in Northern Ireland and in Developing Better Services.
