

Midwifery 2020

- UK Programme of Work
- Policy Context
- Progress to date
- 5 Workstreams

Noreen Kent Programme Director
Midwifery 2020 January 2009

Midwifery 2020

Public Health

This will consider the Public Health role of the Midwife taking account of inequalities, parenting education, early years work and multiagency working.

Workforce & Workload

This includes demographics, education commissioning, attrition, and workforce planning.

Midwifery 2020

Maternity Care Pathways

This covers all aspects of care including models of care, service delivery, elements of skill mix and social enterprise.

Education & Career Progression

This includes clinical and academic careers, mobility and flexibility, newly qualified midwives, levels of practice, research, midwife managers and teachers and valuing midwifery as a career choice.

Measuring Quality

This will include metrics work, clinical quality and outcome indicators and valuing midwifery care.
