

Exempted Drugs

1. Any controlled drug specified in Schedule 4 or 5 to the Misuse of Drugs (Northern Ireland) Regulations 2002.
2. Any liquid preparation designed for administration otherwise than by injection which contains any of the following substances and products, that is to say:
 - (a) Amphetamine
 - (b) Benzphetamine
 - (c) Chlorphentermine
 - (d) Fenethylline
 - (e) Mephentermine
 - (f) Methaqualone
 - (g) Methylamphetamine
 - (h) Methylphenidate
 - (i) Phendimetrazine
 - (j) Phenmetrazine
 - (k) Pipradrol
 - (l) Any stereoisomeric form of a substance specified in any of the paragraphs (a) to (k)
 - (m) Any salt of a substance specified in any of the paragraphs (a) to (l)
3. Any of the following substances and products, that is to say:-
 - (a) Any 5, 5 disubstituted barbituric acid
 - (b) Cathine
 - (c) Ethchlorvynol
 - (d) Ethinamate
 - (e) Mazindol
 - (f) Meprobamate
 - (g) Methylphenobarbitone
 - (h) Methypylone
 - (ha) Midazolam
 - (i) Pentazocine
 - (j) Phentermine
 - (k) Any stereoisomeric form of a substance specified in paragraph (a) or (j) above
 - (l) Any salt of a substance specified in (a) to (k) above
 - (m) Any preparation or other product containing a substance or product specified in any of paragraphs (a) to (l).

4. Any preparation or other product consisting of one or more component parts, any of which contains a controlled drug, where –

(a) the preparation or other product is not designed for administration of the controlled drug to a human being or animal;

(b) the controlled drug in any component part is packaged in such a form, or in combination with any other active or inert substances in such a manner, that it cannot be recovered by readily applicable means or in a yield which constitutes a risk to health; and

(c) no one component part of the product or preparation contains more than one milligram of the controlled drug or one microgram in the case of Lysergide or any other N-alkyl derivative of Lysergamide.
