As a frequent visitor to the republic of Ireland < my family are delighted with the ban in public places . It makes family activities such as eating out so much more pleasurable. I think our society in Northern Ireland can only benefit in terms of health and economically. we, as a family rarely eat out any more because even with designated non smoking areas we still smell smoke aside from the fact that the no smoking areas tend to be the worst "seats in the house"! Please for the sake of families get this legislation in place as soon as possible
