CONSULTATION QUESTIONNAIRE ON

MINIMUM AGE OF SALE OF TOBACCO PRODUCTS

October 2007

INTRODUCTION

Purpose

1. This Questionnaire seeks views on whether the Department of Health, Social Services and Public Safety should use the power contained in the Smoking (Northern Ireland) Order 2006, to amend, by regulations, the age of sale of tobacco products.
2. The Department carried out an Integrated Impact Assessment (IIA) screening exercise on the proposed legislation. The results, which include equality considerations and a Partial Regulatory Impact Assessment, are set out in Annexes 1 and 2 of the consultation package.

Background

3. In March 2006, the Department undertook a public consultation exercise on the content of the then draft Smoking (Northern Ireland) Order 2006. Article 14 of the draft Order included a power for the Department to amend, by regulations, the age limit for the sale of tobacco products – currently 16 years - and respondents were invited to comment on whether the Department should take this power. It was made clear that any proposal to raise the age of sale would be the subject of further consultation.
4. There was strong support for the Department taking the power, with 78% in favour of this action. The majority of those in favour felt that the Department should go further and raise the age limit immediately. The main reasons offered were that such action would enable the age of sale to be brought into line with that for alcohol sales (18 years); that it would also bring Northern Ireland into line with the Republic of Ireland; and that it might make enforcement easier, particularly in border areas.
5. The age of sale has been raised to 18 in England, Wales and Scotland with effect from 1 October 2007. The Smoking (Northern Ireland) Order 2006, the main provisions of which came into operation on 30 April 2007, contains the power for the Department to amend the age of sale of tobacco products.

Consultation - How to Respond

6. **The consultation will run from 29 October 2007 to 18 January 2008.** The Questionnaire sets out three options on the minimum age of sale of tobacco products about which the Department would welcome views. It also seeks views on the Integrated Impact Assessment Overview and Partial Regulatory Impact Assessment.

7. In order to facilitate analysis it is important that respondents use the Questionnaire. Completed Questionnaires **must be received by the Department by 5.00pm on Friday 18 January 2008**. Responses should be posted to:

- (c) **Environmental;**
- (d) **Human Rights;**
- (e) **Victims;**
- (f) **Community Safety & Other Areas?**

Is there any other evidence which you consider should have been taken into account in these assessments?

Are these really necessary in view of the potential health benefits of trying to prevent young people smoking?

The Department would particularly welcome comments on the following:
