

# THE GP PATIENT SURVEY

In Northern Ireland

Health and  
Social Care

## Give us your views on local health services

In January 2011 we will be conducting the third annual GP Patient Survey in Northern Ireland.

The views that patients gave in previous surveys were very helpful so we will be asking patients about how their GP surgeries are performing again this year.

The survey covers issues that concern patients, such as access to care and satisfaction with treatment.

If you receive a questionnaire in the post, please fill it in and send it back as soon as you can. Even if you have received a questionnaire like this before, we still want to hear your views.

This survey will help us to improve the services we provide for patients so it is really important that we hear your views.
